Sea Cliff, N.Y. 11579

Dear Sir/Madam:

This is to certify that the drainage facilities to be used exclusively for the construction of a swimming pool on the premises of:

Keiler Residence  
19 Marden Avenue  
Sea Cliff, N.Y. 11579

will not require draining because the pool is constructed with a vinyl liner. The pool water will be continuously recirculated through the filter and will be reused from year to year. The drainage from the filter backwash will be piped to a drywell located on the subject lot and will not interfere with the public water supply system, existing sanitary facilities, adjoining property owners, public highways or private roads.

Sincerely,

HM Engineering P.C.

Hrvoje Marnika, P.E.

**NOTE:** All walls over 2' in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.
